Subject: RE: 24 c- one pager for your review

Following up on a question from Tate.

A previous one-pager noted:

In apparent contradiction to the plain text of section 24(c), a response to an EPA Q&A document (available online) as to whether states could “use Section 24(c) to impose more restrictive measures than are on a section 3 label?” -- EPA states that “[y]es, under certain circumstances states may impose more restrictive measures than are on section 3 labels, or limit use to a subset of uses on section 3 labels.”

Joe/Bob-Can OGC weigh in on how to reconcile the language in the Q&A document?

Do we have a one pager that can go on top of the draft FRN and the Memo for comment to go home with the Administrator today? If we don't, Kaitlin can you pull one together? Kaythi, you were updating the comms plan. That would be maybe something to run by Corry again.

Alex—as requested, I’m attaching the latest version of the FRN for your review. The comment period in this document also will need to be updated to 90 days.

Final version – As we are now going out with a 90-day comment period, Andrea Drinkard had asked if we could wait until the following week (week of 11/18) instead. Let’s talk in comms meeting.

Of course final tweaks welcome. Separately I will fwd to Brittany Bolen, Matt Leopold, and Tate Bennett (again!).
